Blue Grama

Bouteloua gracilis
(syn. *Chondrosum gracile*)
Poaceae

W 12"–24"

H 12"–24"

- Prospers in full sun and all soil types
- Has unique seed heads that resemble an eyelash
- Will expand slowly from rhizomes
- Turns tan when dormant
- Drought tolerant
- Larval host to many butterflies and moths
- Excellent grass for a rock garden
